

SLICE IT RIGHT. EVERY TIME.

Slice virtually any variety of bread cleanly and consistently with the Variety Bread Slicer. With almost 100 years of bread-slicing experience, the Variety Slicer is built for everyday use. Its simple operation helps bakeries keep slicing moving without complicated setup or training.

Clean, consistent slicing across virtually all varieties of bread

Simple operation makes it easy to train and cross-train employees

Automatic bread hold-down keeps loaves in place during slicing for clean slices

Handles loaves up to 16" long for flexibility across a variety of breads

Built-in bagging scoop with your choice of top, front or side mount

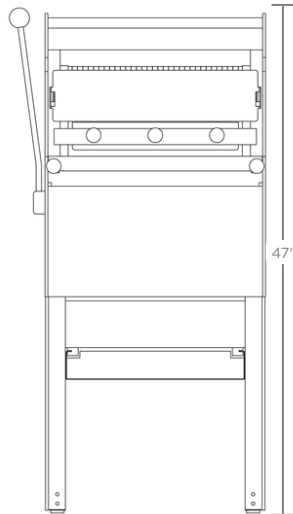

Made in the USA with stainless steel contact components and food-safe materials
