MX-1908 with Inline Film Printer

DROP THE LABELS. **SAVE THE LABOR.**

Oliver's MX-1908 with Inline Film Printing is a fully integrated, high-resolution, on-demand printing system that eliminates the labor, time and extra steps required to manually apply labels.

Increase throughput, reduce errors and deliver a more consistent, professional package every time.

No Manual Labeling to address labor shortages or redeploy staff to higher value tasks

Elevate Presentation by printing text, barcodes and logos directly on the film for a sleek, polished look

Recall Menu Items Fast with the push of a button to keep production running

Label Confidently with a large print area and high resolution for easy-to-read text to meet regulatory requirements

Keep Your Meal Line Moving by reducing operational steps and minimizing placement errors

"We would recommend this to any foodservice organization. Don't wait!"

DIMENSIONS & DETAILS

Specification	MX-1908 Automatic Heat Sealer with Inline Film Printer
Sealer Type	Automatic
Productivity Rate (up to)	28 Trays/min 1,680 Trays/hour
Conveyor Speed	Adjustable
Conveyor Motion	Intermittent
Heat-Seal Technology	Platen System
Machine Dimensions	76.8"L x 22.5"W x 61.63"H
Maximum Tray Dimensions	6.5"L x 8.7"W x 3.25"D
Tray Sealing Lengths	3.5" or 7"
Maximum Film Roll Dimensions	9"W x 7"Diameter
Tray Carriers	Removable, Aluminum Carriers | Dishwasher Safe
Infeed Length	28"
Power Type(s)	120V Electric
Body Construction	Stainless Steel
Net weight (estimated)	395 lbs
Shipping weight (estimated)	591 lbs
Shipping Dimensions	85" x 35" x 67"
Mobility	Four lockable casters
Low Ambient Temperature	50°F
Manufacturing Location	Made in the USA
Printhead Width	4.33"
Maximum Print Area Dimension	4" x 3.5"
Print Resolution	300 dpi
Printer Interface	Full Color Touchscreen
Film Print Location	Adjustable
Menu Storage Capacity	4 GB
